REGION G FULL SCALE EXERCISE 02/17/16

Position	Start time	Call	Name	email
Augusta Medical Center	7:00			
Burke Medical Center	7:00	K4BR	John	
Burke Medical Center	7:00	KK4YVE	Scooter	
Doctor's Hospital	7:00	NE1AM	Ryan	
Doctor's Hospital	7:00	KW4FX	Pete	
Trinity Hospital	7:00	AK4NZ	Cy	
University Hospital	7:00	KK4RHJ	Joe	
University Hospital	7:00	KM4QKA	Tommy	
VA Downtown	7:00			
Emanual Medical Center	7:00			
Gracewood	7:00	KK4KTS	Jamie	
Ga War Memorial Nursing Home	8:00	AE4PQ	Vince	
Public Health EOC	7:00	KR4XN	Richard?	
Richmond County EOC	7:00	KJ4HZ	Ray	
Stand by Operator	7:00			
Simulated Skywarn reports	7:00	KK4NXA	Chris	
Simulated Skywarn reports	7:00	KC4KPN	Bob	
Simulated Skywarn reports	7:00			
1st Skywarn NC	7:00	KD4CK	Dick	
2nd Skywarn NC	8:00			

Operators for the simulated Skywarn reports will be provided a script and time line for the reports. We would like for this to be as accurate as possible for the time line as well as the events being reported.

Stand by operators are asked to be available to fill in if other operators are not able to fill their assigned position.

Hospital operators should contact the emergency management coordinator for the hospital for instructions. Email and/or phone numbers will be provided.

We will begin the simulated Skywarn net at 7:00 am with weather coming in from the west & south west on the 147.120 (Wrens) repeater (no tone). Hospital operators will monitor that repeater and relay any pertinent information to the hospital EOC as they direct. At 8:00 am the Skywarn net will move to the 145.490 repeater when NWS Columbia would normally become involved and the Hospitals should monitor that repeater if possible but hospital communications will remain on the 147.120 repeater since it has coverage of all the hospitals involved.

Anyone wishing to sign up for a position listed above, please email Dick at kd4ck@arrl.net and include the position you want to fill, name and call sign. I will use your email address to send any pertinent information and updates.
